Forecast for Sunday 12 Jun 2022

Weather: Early low cloud may cover the hill tops, and bring a little drizzle or light rain at times. However, this is expected to clear by 9 am to leave a dry bright day with light winds. One or two light showers are possible in the afternoon.

Chance of cloud-free hill tops above 800m: Until 9 am: 20% with early cloud covering the hills down to 300m or so. After 9 am: 80% with a small chance of shower clouds obscuring the summits.

Low Cloud and visibility: Until 9 am. Low cloud likely down to 300m above sea level. This could cause patchy hill fog with visibilities down to 100m at times.
After 9am: Good visibility of distant hills up to 40 miles away, perhaps briefly obscured in showers.

**Level above which ground is expected to be frozen/snow is expected to settle.*

Meteorologist's View

In the afternoon sunshine, UV levels will be very high out on the hills, as we are only a few days away from the summer solstice. Sun protection and the wearing of T-shifts are recommended. Pollen levels are also high at this time of year, so those with hay fever might want to come prepared.

Forecast for Monday 13 Jun 2022

Weather: Early low cloud may cover the hill tops, and bring a little drizzle or light rain at times. However, this is expected to clear by 8 am to leave a dry bright day with light winds.

Maximum wind: Westerly 12 mph with gusts up to 20 mph in the afternoon on the summits.

Chance of cloud-free hill tops above 800m: Until 8 am: 40% with early cloud covering the hills down to 400m or so.
After 8 am: 90% with fair weather cloud well above the summits.

Low Cloud and visibility: Until 8am: Low cloud likely down to 400m above sea level. This will cause patchy hill fog with visibilities down to 100m at times.
After 8am: Very good visibility of distant hills up to 30 miles away.

Temperature: **Valleys:** 10 C at dawn rising to 17 C in the afternoon.
At 800m: 3 C at dawn rising to 7 C in the afternoon.
Freezing level: Above summits.
